## Your Every Child Matters Survey Choices

QDP Services understand that schools require flexibility in their approach to recording and capturing the voice of their stakeholders.

To achieve the greatest levels of flexibility QDP offer 2 different approaches to Every Child Matters surveys.

### 1. Cross School ECM specific Survey

This is a single survey which can be run across your entire school or by a sample group. All groups are asked the same ECM questions. The data captured is reported by the individual class/sample groups as well as whole school and benchmarked nationally against other schools.

This survey can be undertaken for as little **£95.00** (Online, up to 500 students)

### 2. Embedded questions in your Year Specific Surveys.

This option is available to schools who want to run a series of surveys across their school. All QDP school surveys have ECM questions embedded in their range of questions. By drawing together these questions a comprehensive ECM report can be produced.

For Example. If your school chose to run KS1 and KS2 surveys, an ECM report would be produced with the QDP standard set of reports.

**No matter which option you choose QDP reports will highlight success and concerns allowing you to target your continual improvement efforts. QDP reports will provide early warnings of issues and exactly where action might be needed!**

All QDP surveys are conducted in a fast, effective and irresistibly affordable framework with full support from planning your surveys to dissemination of data.

Second and subsequent surveys will also highlight your progress with QDP Distance Travelled reports.

QDP are dedicated to supporting providers all over the UK in anyway that will have a positive impact on the health, safety and all round well being of all our children and their ability to flourish and contribute positively to society.

*The ECM choices we offer provide all schools with an opportunity to gather quantifiable views and evidence from all children. QDP reports are easy for all your staff, governors, parent/carers and pupils to understand and work with.*

*Top quality evidence for your funding bodies and Ofsted!*

More important and of higher value than all of this is it provides a voice for children to give their own views of their own situation and experience entirely confidentially.

Call us now to start planning your ECM surveys. QDP will help you make the right choice for your school!
